

HAEFA

HEALTH AND EDUCATION FOR ALL

OVER

6.6 million

SINCE
2013

free health screenings and medical treatments for underserved populations in remote and coastal regions of Bangladesh

OVER
275,000

total healthcare services delivered just to Rohingya refugees since 2017

HAEFA's services:

- Medical care for Rohingya refugees
- Treatment and follow-up care for garment factory workers
- Cervical cancer screening and treatment
- Diagnostic lab testing in refugee camps
- Mental health services
- Mobile medical clinics in remote regions
- Merit-based scholarships for students from low-resource communities

Screened and treated over
141,000 women for cervical cancer
– 73,000 women in Kurigram and
68,000 in Cox's Bazar

Our Vision

HAEFA delivers healthcare and education to Rohingya refugees, rickshaw pullers, garment workers, and underserved individuals in Bangladesh, working toward universal health coverage.

ABOUT US

Health and Education for All (HAEFA, pronounced hi-fa) is a U.S.-based nonprofit organization founded in 2012 by Dr. Ruhul Abid (Brown University Alpert Medical School) in partnership with Dr. Rosemary Duda (Harvard Medical School). Initially focused on ready-made garment workers in Bangladesh, HAEFA now serves marginalized populations across remote and coastal regions.

HAEFA relies on your support
